A Few Friendly Reminders As the Warm Weather Approaches....

- Please remember when using outdoor fire pits to keep your fire well supervised and to not set fires during windy, dry conditions.
- There shall be no burning of rubbish, garden refuse, dead leaves, household garbage, or any material which when burned will generate black smoke or offensive odor.
- ATV's can only operate off the owner's property and within Town limits, by the most direct route available in order to operate these machines outside of the Town boundaries. Driving on/over lawns, through parks and on Town streets is prohibited. ATV's are NOT for use within Town limits
- Please check your trees and bushes. It is the property owner's responsibility to ensure that trees and bushes do not obstruct back lanes and alleys. Please ensure you keep your property clean and tidy. This includes keeping it mowed and free of debris and garbage.
- Please remember that a building permit is required whenever work regulated by *The Uniform Building and Accessibility Standards Act* is being done. Building permit applications need to be reviewed and approved at a Regular Meeting of Council then sent to our municipal Building Official for the required plan review before approvals are granted to the applicant.
- A development permit is required for the construction of a fence. A development permit is different from a building permit. A development permit ensures all zoning requirements are being met, etc. A building permit ensures all buildings meet National Building Code standards and are reviewed and inspected by a building official.
- Applications can be obtained from the Town Office.
